Message by His Excellency, Dr. Ali Mohamed Shein The President of Zanzibar and Chairman of the Revolutionary Council

The Revolutionary Government of Zanzibar has placed high priority on infrastructure development for the period of 2016 to 2020; knowing that this is crucial to achieving its economic development goals and ultimately, increasing harmony and prosperity.

The economy of Zanzibar has been growing steadily for the last five years despite the sluggish growth of the global economy during the same period. The economy grew at the rate of 6.6 in 2015. The growth is greatly attributed to the good performance of the tourism industry, an increase in agricultural production and expansion of the service industry.

The Government resolves to take Zanzibar and its people forward on the path of progress and prosperity with the economic growth rate of 8 to 9 per cent for the next five year period; from 2016 to 2020. This is an attainable goal if we take into consideration the economic trend of the last five years and our current economic potentials which are very promising.

In collaboration with investors, the Government has opened up the Fumba Free Economic Zone where currently a number of infrastructure development projects are on progress. In fact, more opportunities are available in Zanzibar with promising returns due to its abundant resources and concessions provided by ZIPA under Zanzibar Investment Promotion and Protection Act of 2004.

On behalf of the Revolutionary Government of Zanzibar, I am delighted to cordially welcome both local and foreign investors to grasp the available opportunities. We assure you of our commitments in bringing about rapid economic development for investors, the people of Zanzibar and Tanzania in general.

Message by Hon. Dr. Khalid Salum Mohamed, Minister of Finance and Planning

Investment Promotion Authority (ZIPA) has been restructured purposely to promote and facilitate private investments in Zanzibar, both foreign and domestic. The overwhelming response from private investments demonstrates investors' strong confidence on available facilities and support being offered as well as the political will of the Government.

The process of engaging the private sector to participate adequately in building strong and resilient economy takes time as it involves reforms in several areas such as finance, legal framework, human resources development and good governance.

Over the years, the Government has taken various measures to improve business environment for investment in Zanzibar. In this regards, reforms have been undertaken parallel with the adoption of Zanzibar Investment Policy in 2004. Zanzibar

Zanzibar Business Council chaired by the President of Zanzibar provides a platform for investment and business consultations between the private and public sectors. This manifests the fact that the Government of Zanzibar is well placed to strengthen private – public partnership.

We have recently adopted Public Private Partnership (PPP) Policy indicating that the Government is ready to partner with investors around the globe.

Message by Mr. Salum Khamis Nassor, Executive Director Zanzibar Investment Promotion Authority (ZIPA)

intensive methods like real estate development and light industries at free economic zones. For a much more lucrative business, investors are strongly advised to consider investing in value addition of local products which have great potential in both international as well as domestic markets.

Investments are well protected by law and international conventions. There will be no compulsory acquisition as stipulated in the Article 17 of Zanzibar Constitution. Zanzibar, being a constituting part of the United Republic of Tanzania, is a member of Multilateral Investment Guarantee Agency (MIGA) of the World Bank. Also, Tanzania is a signatory to the Convention of Recognition and Enforcement of Arbitration Award, and a member of International Centre for Settlement of Investment Disputes (ICSID).

As the Government stretches its full arm of support to ensure that there is a win-win result, it is ZIPA's responsibility, therefore, to guide potential investors in their investments endeavors in Zanzibar, so as to benefit from their investments. This guide, we believe, will further clarify and clear any doubt on the possibilities of investing and doing business in Zanzibar.

Investors are mostly welcome to invest in areas supportive to service industry that are already moving forward towards international standards. Recommended are those areas utilizing domestic resources such as tourism, fisheries, horticulture and agro-processing. Emphasis is on those investments that create employment using labor

It is our sincere hope that information provided in this Guide will be useful to entice your intention and make you decide to partner with Zanzibar resulting into win-win situation.

**Welcome to Zanzibar
A heaven with unique
opportunities**

1.0 Motives behind

Country stability and Investment Guarantee

Zanzibar is politically, socially and economically stable. Private investments are protected constitutionally as well as through international conventions.

Strategic location

Zanzibar has been a trading hub for millennia. Due to her geographical location, it has become an ideal place for companies that need to do business with mainland Africa and beyond.

Market potential

Zanzibar is unique and differs from other small island economies

in the world. Being part of The United Republic of Tanzania, it has huge market potential with a population of 45million. Since United Republic of Tanzania is a member of East African Community (EAC) and Southern African Development Community (SADC), Zanzibar is assured of a market area with over 300 million inhabitants.

Abundant resources

The amazing island of Zanzibar has abundant resources such as agricultural and marine products, lovely sandy beaches and sunshine, historical and cultural sites in addition to the traditional life styles of Zanzibaris. The

investing in Zanzibar

people of Zanzibar are very friendly and hospitable; and investors will find the Island a lively place for both work and leisure.

More opportunities may be realized in the very near future as Zanzibar has recently discovered oil and gas which open doors for a wide area of supporting services. Besides, **Free Economic Zones** provide opportunities to investors who wish to conduct re-export business by putting their processing industries and repacks for the foreign market.

Workforce

Zanzibar offers young and dynamic workforce; and gives

investors an opportunity to employ expatriates in key positions. ZIPA is available to facilitate the engagement of local labor force as well as processing necessary permits for the expatriates.

Predictable fiscal regime

Zanzibar fosters a very stable and predictable fiscal regime that recognizes the importance of the companies to recover investment cost prior to the payment of corporate tax. It also offers lucrative incentive packages to strategic investors. Foreign investors are allowed to own hundred per cent of their businesses.

Where Quality is Affordable!

2.0 Investment

Opportunities

2.1 Priority sectors

Zanzibar is delighted to welcome local and foreign investors to explore investment opportunities available in the exotic Isles. Due to her socio and economic benefits, investors are encouraged to invest in priority sectors which are **Tourism, Agriculture and fisheries; and labor intensive project such as Real estate development and Light industries at Free Economic zones.**

Tourism

Tourism is one of the fastest growing industries in Zanzibar and has attracted more than 61% of Investment projects approved by ZIPA. The sector boasts a wide variety of tourism options, from the historical and cultural sites of Old Stone Town, to beach and leisure activities. It is a very promising sector with high returns.

With more emphasis on eco-tourism, opportunities exist in:

- Up market hotels/resorts specifically chain hotels
- Sports tourism
- Conference tourism
- Health tourism
- Special cuisine restaurants

THE
ZANZIBAR
COLLECTION

Email: info@thezanzibarcollection.com

www.thezanzibarcollection.com

Agriculture

Agriculture gross value added (GVA) in 2013 increased by 13.7 percent in constant 2007 prices. The GDP share of Agriculture increased from 20.2 percent in 2012 to 21.4 percent in 2013. Agriculture Sector now accounts for 30.8 percent of GDP compared to 24.7 percent in 2007. This achievement is entirely due to the significantly higher increases in agricultural, forestry and fish prices compared to the more subdued price increases for

most other industries.

Among the factors of success are fertile land and good weather. The climate allows different types of crops, vegetables and fruits to be grown and processed. There is, therefore, great potential for agro – related industries which private investors can engage in. In Zanzibar, you only enjoy fresh fruits, fresh vegetables and freshly brewed fruit juice of your choice – a healthy way of life.

Investment opportunities in agriculture include:

- Horticulture production
- Fruit farming, processing and canning
- Agro processing and value addition
- Exportation of fresh fruits, specifically bananas, oranges, rambutans, dorians, mangoes and pineapples.

Spices

For centuries Zanzibar has been exporting quality exotic home-grown spices to the world market. Our famous traditional spice is clove. Others are cinnamon, cardamom, nutmeg, ginger, black pepper and chillies.

Untapped opportunities in spices are the 'value addition' and processing by-products such as perfumes, perfumed soap, medication and food processing items.

Karafuu ya Zanzibar ni Karafuu Bora Duniani, Kwa sasa zinapatikana kwa ujazo Mkubwa na Midogo katika Ofisi zake zilizopo Zanzibar, Dar es Salaam na Dubai

Zan Essential oil ni Suluhisho

Nunua kilichobora, Nunua Karafuu na Mafuta ya Mimea ya Zanzibar

Fisheries

Zanzibar lies on the crossroads of rare marine resources and biodiversity with unlimited potential for development of fishing industry. Most of fishing activities in Zanzibar are small-scale; taking place along coastal reefs using traditional methods and crafts. A large amount of fish caught are used for subsistence or sold for local consumption. Demand for fish is increasing as tourist hotels and restaurants seek high value species such as sword fish, squid, octopus, crab, marlin, snappers, prawns, tuna and kingfish. Fishing accounts for about 53 percent in agriculture sector growth. Local small entrepreneurs have already engaged in small scale fish processing but opportunities are open for more advance technology in the following lucrative areas.

Investors are free to choose suitable areas for investment in:

- Deep Sea Fishing (snappers, emperors, tuna, sword fish, marlin, king fish and sailfish)
- Establishment of lending sites facilities
- Establishment of cold storage facilities and ice making plant
- Establishment of dry-dock facilities
- Fish/marine processing, packaging and canning
- Aqua/Mari culture (fish, shrimps, lobsters, seaweed and many more)

Seaweed production

Seaweed farming is a well-established industry in Zanzibar. It has created more than 25,000 jobs to indigenous people, especially women and gives them an opportunity to earn an income for themselves

and their families. Zanzibar is the third largest exporter of seaweed in the world, after the Philippines and Indonesia. Her exports for spinosum reached 15,000 tons in 2012. However, production of cottonii which is grown in deep water was less than 600 tons.

There is great potential for investors to increase seaweed production specifically cottonii and produce seaweed by-products such as perfumes, shampoos, toothpaste, medicines, ice cream, milk shakes, and yoghurt by using seaweed extracts such as carrageen, agar, and alginates as gelling substances, stabilizers and emulsifiers.

Free Economic Zones Opportunities

Real-estate Development

- Residential sites
- Establishment of ICT parks and education villages
- Establishment of exhibition and convention centers

Zone development

Investment opportunities:

- **Infrastructure development and Service Provisions**
 - Roads network within the zones
 - Sewage and drainage systems
 - Power generation and distribution networks
 - ICT facilities
 - Establishment of Industrial sheds and other types of storage facilities such as chillers and warehouses

Industrial sites

Investment opportunities include:

Manufacturing, processing, assembling and packaging of various commodities such as:-

- Dairy and poultry products
- Textiles and garments
- Pharmaceutical – clove and herbs - based products
- Paper, plastics and plastic molding
- Soaps, detergents and general toiletries
- Computers, electronics and motorcycle assembly
- Blocks and tiles
- Boat building

AZAM Long Life UHT Milk is good for you and your family

Free port Services

With emphasis on transit trade business, opportunities include:

- Warehousing and storage
- Labeling, packaging and repackaging
- Sorting, grading, cleaning and mixing
- Simple assembly
- Minor processing
- Export oriented airport and seaport based activities

2.2 Other Investment

opportunities

Apart from prioritized sectors, Zanzibar has opened her doors for investment in other sectors. These include:-

Livestock and animal husbandry

- Dairy farming
- Animal feed production
- Poultry farming and processing
- Construction of modern slaughter houses
- Establishment of parent stock farms with hatcheries

Services

- Establishment of specialized hospitals and diagnostic centers
- Establishment of financial services including investment banks
- Information and communication technology
- Establishment of modern colleges for hospitality industry
- Establishment of maritime institute

3.0 Investment climate

3.1 Economic Overview

Zanzibar economy has been stable for years. GDP growth increased from 4.2 percent in 2008 to 6.6 percent 2015. Similarly, per capita income increased from US\$ 499 in 2008 to 817 in 2015. This is a tremendous achievement as the

growth exhibits gradual growth from 2008 to 2015.

3.2 Workforce

There is ample hardworking, energetic and dynamic work force to serve investment projects. While investors are encouraged to set their own competitive compensation packages, labour laws and regulations are already in place.

3.3 Economic Infrastructure

Electricity

Zanzibar (Unguja) is connected to the national (Mainland Tanzania) power grid through underwater submarine cables with a capacity of 150MW. It has also standby generators with capacity of 25MW. Likewise, her sister

island of Pemba is connected through submarine cable from Tanga (Mainland Tanzania) with a capacity of 20MW and has standby diesel oil-run generators with a capacity of 5MW. The applicable current is 220V which conforms to British standards. The cost of electricity in United States dollars (US\$) per KWH is provided under table I below:

Table 1: The Indicative Cost of Electricity in US\$ Per Kwh

Tariff Class	Unit Range	Cost/kwh	Service charge
Residential Low Usage	1-50	0.04	1.29
	51- 2,000	0.1	
General Services	1-2,000	0.1	1.29
	>2,000	0.13	
Small Industries	1-5,000	0.02	10.09
	>5,000	0.13

	1KWH	0.08	
	1KVA	6.4	

Source: ZECO, 2016

Water

Zanzibar has adequate water reserves for industrial and household use. Minimum infrastructure is still needed to ensure water supply reaches every part of the Islands. The commercial rate is US\$ 1 per cubic meter.

Telecommunication

Telecommunication system in Zanzibar is excellent, both for local and international calls. Mobile phone technology is available and most advanced. The country is well served by the main 6 telecommunication companies operating not only

in United Republic of Tanzania but also in the East African Region and beyond. These are TTCL, ZANTEL, HALOTEL, TIGO, VODACOM and AIRTEL. The rates are reasonable. Internet services are also available at very competitive rates.

Roads

Zanzibar has about 1,600 kilometers of roads, of which 85 percent are tarmacked or semi-tarmacked. Most of investment areas are covered by tarmac roads. The remaining (15%) are earth roads, which are rehabilitated annually to make them passable throughout the year.

Airport

Zanzibar has two major airports, one in Unguja (International Airport) and the other one in Pemba. The International Airport has been handling large passenger planes since 2012. As a result there has been an increase in passenger and cargo inflows and outflows. With the new passenger terminal to be launched soon, the airport is expected to serve about 1.5 million passengers per year from mid 2017. Pemba airport is for domestic and light weight flights from neighboring countries.

Sea Port

There are five sea ports in Zanzibar, all operated and managed by the Zanzibar Ports Corporation. The main port at Malindi handles 90 percent of

Zanzibar's trade, followed by Mkoani port at Pemba. The other ports are Wete, Mkokotoni and Weshi. Plans are under way to establish a hub port at Mpigaduri area in Zanzibar. This new initiative is expected to expand opportunities in re-export business.

Financial Services

Local, regional and international financial institutions offer a wide range of services in Zanzibar. The People's Bank of Zanzibar, Barclays Bank, Tanzania Postal Bank, Bank of Africa, Diamond Trust, Equity Bank, and Exim Bank are among the reputable banks that have set businesses in Zanzibar. In addition, there are various insurance companies and a number of bureau de change outlets that offer service to interested customers.

3.4 Acquisition of Land

Land in Zanzibar is owned by the Government. It can be acquired by lease of up to 99 years for investment projects.

Acquisition of Land outside Free Economic Zones

The acquisition of land is governed by the Commission for Land (COLA) through the Department of Lands and Registration. However, the signing of a lease agreement with COLA is subject to approval of investment project by ZIPA. The indicative land rates outside Free Economic zones is provided under table 2 below:

Table 2: Indicative Land Rates outside Free Economic zones

Sector	Location	Foreigner (US\$/Ha)	Citizen (TZS/Ha)
Hotel, Villa Guest House	Urban land	7,000	3,500
	Rural area	5,000	2,000
Industrial	Urban land	3,500	300
	Rural area	1,500	200

3.5 Fiscal Regime

Zanzibar fosters a very stable and predictable fiscal regime, which recognizes the importance of business companies to recover investment cost prior to the payment of corporate tax. It also offers lucrative incentive packages to strategic investors.

3.6 Investment Guarantee

Investments in Zanzibar are constitutionally protected, as well as through international conventions, of which Zanzibar being a constituting part of the

United Republic of Tanzania, is a member of Multilateral Investment Guarantee Agency (MIGA) of the World Bank. Also, Tanzania is a signatory to the Convention of Recognition and Enforcement Arbitration Award, and a member of International Centre for Settlement of Investment Disputes (ICSID). Contractual rights are guaranteed by the law of contract whereby mechanism for settlement of disputes through arbitration and judicial process are clearly stipulated.

3.7 Restricted and Reserved Business

Restricted Business

Due to religious and traditional norms and values CASINO and Gambling businesses are restricted to both local and foreign investors.

Business reserved for local Investors

The following businesses are reserved for local investors:

- Barbershops
- Hair dressing
- Beauty salons
- Retail shops
- Tour operation
- Restaurant

Note: The list is not exhaustive; the Authority reserves the right to set aside some business activities for local investors

For the purpose of this guide, “investor” means Approved Enterprise, Approved Domestic Enterprise or legal entity that is making or has made investment in Zanzibar and has been issued with an Investment Certificate in accordance with section 12 of the Zanzibar Investment and Protection Act no 11 of 2004 (ZIPPA).

4.1 Investment Certificate

Investment Certificate is issued to an investor under Section 12 of Zanzibar Investment Promotion and Protection Act No. 11 of 2004.

How to Apply for Investment Certificate

Application of Investment Certificate involves two stages as follow:

Stage 1:

Submission of concept note through Investment Intention Form which is available free of charge at ZIPA offices or can be accessed through its website www.zanzibarinvest.org

Once your concept note is accepted, you shall be notified and provided with application form for a non-refundable fee of US\$ 200 or informed otherwise.

Stage 2: Submission of Application Form

A dully filled application form should be submitted to ZIPA, accompanied with the following documents:

- Ten (10) copies of Business Plan/feasibility study
- Proof of availability of funds and bank statements for the last six months
- Passport copies, passport size photographs, CV and police clearance certificates of all investors/shareholders from country of residence and country of origin
- Certificate of Incorporation
- Memorandum and Article of Association

Investment Threshold

The minimum investment capital requirement in Zanzibar is provided below:

Table 4: Minimum Investment Capital

Sector	Foreigners (US\$)	Citizen (US\$)
Hotels	2,500,000.00	300,000.00
Other sectors	300,000.00	50,000.00

Source: ZIPA, 2016

Investment Certificate Fee

Once investment proposal is approved by ZIPA, the investor is issued with Interim Certificate. The Certificate is renewed annually until all approved capital is invested. Thereafter Investment Service License shall apply. The fee structure for the Interim Certificate is provided below:

Table 5: Investment Certificate fee

Capital Investment (US\$)	Investment Certificate fees (US\$)
500,000 and below	600
500,001 – 2,000, 000	1000
2,000,001 – 4,000,000	1,200
4,000,001 and above	1,500
Free Economic Zones projects	1,000

Source: ZIPA, 2016

Note:

- Rates are subject to change without prior consultation with Investors.
- Once investor is approved for “Investment Service License”, the rights of capital goods exemption comes to an end. Any new development shall be treated differently and subjected to all approval process.

TULIA ZANZIBAR Unique Resort

4.2 Building Permit

Building Permit is issued by project. All drawings should be drawn in accordance with Development Control Unit Drawing Guidelines provided by (DCU) through ZIPA after approval of drawings of the proposed ZIPA.

How to Apply for a Building Permit

Investors shall apply a Building Permit to ZIPA and submit the following documents:

Ten (10) copies of proposed drawings for the project to be implemented; and shall include the following:-

- i. Architectural Drawings
- ii. Topographic Maps
- iii. General Site Lay out Plan
- iv. Plans, Section and Elevations of all Structures
- v. Architectural Details
- vi. Engineering/Structural Drawings
- vii. Optional Drawing

Note:

All submitted drawings should have a stamp of Zanzibar Board of Professional of Architects, Engineers, and Quantity Surveyors.

Fumba Satelite City - Master Plan

- i. A dully filled Value Added Tax form issued by Zanzibar Revenue Board
- ii. Two copies of pro forma invoice

Note:

For all goods exampmted, Investor shall pay 5% of the total amount of exampmted duties to ZIPA as service charge

4.4 Work and Residence Permits.

Important information on permit application

Zanzibar Investment Promotion and Protection Act No.11 of 2004 provides an opportunity for the approved projects to employ expatriates in key positions that are determined by ZIPA. The issuance of Work and Residence Permits is governed by Employment Act No. 11 of 2005 and Immigration Act No.7 of 1995 respectively. The following is important information to be considered by investors on application of those permits:

- i. All permit applications should be submitted to ZIPA office at Maruhubi on working days from 0800hrs to 1400hrs
- ii. All documents should be submitted in English or Swahili language. The State University of Zanzibar (SUZA) and Investors' respective Embassies may be used for documents translation (if necessary).
- iii. All applications should be accompanied with all required documents. Incomplete applications shall not be received.
- iv. Full submission of documents does not guarantee the issuance of permits. The Competent Authorities reserve the right to approve/disapprove any application.
- v. All Academic and Professional certificates must be certified by Competent Authorities such as University, High Court and the like
- vi. Evidence of original Police Clearance shall be required during submission of the application for which Investors should bring with them during the submission of application.
- vii. Permit renewal must be done timely to avoid penalty. Any delay in submitting application to ZIPA for renewal of permits shall attract a penalty of United State Dollars ten (US\$ 10) payable to ZIPA for each delayed day for both investor as well as expatriates.
- viii. Investors shall bring with them passport of the applicant for any permit cancellation application. Failure to submit the passport, Investor shall be liable to a penalty of US\$ 300, payable to ZIPA.
- ix. The issuance of Work and Residence permits shall not exceed 14 working days from the date of submission. Investors are advised to make their payment on time to avoid unnecessary delays. All payment should be deposited to PBZ Bank at account number 052103000027 for Work permit and account number 022102000005 for Residence permit.
- x. All approved Permit/Passport shall be collected at ZIPA on working days from 1300hrs to 1500hrs.
- xi. The wage of every employee shall be payable in legal tender directly deposited to each employee's local bank account and any agreement to the contrary shall be null and void.
- xii. It is an offence for any foreigner to work without a valid work permit. It is also an offence for any employer to employ or permit any foreigner without a valid work permit to work in his or her establishment.

Foreign employee allowance per project

Number of foreign employees allowed is based on the type of investment and capital investment injected as categorized in the table below:

Table 6: Duration and Number of Expatriates Allowed Per Project

Capital Investment (US\$)	Total Expatriates	Managerial Position	Executive Position	Non Executive Position
Above 6,000,000	15	5	5	5
3,000,000–6,000,000	10	3	3	4
1,000,000- 3,000,000	6	2	2	2
BELOW 1,000,000	4	2	1	1
Renewal allowance		Project life	4 years	2 years

Source: ZIPA, 2016

Note:

- i. The recruitment of non-citizens in any investment project should not exceed fifteen percent (15%) of the total labor force of the project.
- ii. “Managerial Position” means a position which requires professional qualifications and managerial experience which may be filled permanently by an expatriate as long as the project is in operation.
- iii. “Executive Position” means a time position which requires professional qualifications and practical experience.
- iv. “Non-executive Position” means a time position which requires technical skills and experience (applicable during construction phase only).
- v. Competent authorities reserve the right to further limit/add number of expatriates depending on the nature of the business.

Work permit fee structure

Work permit is issued by Labor Commission through ZIPA and is annually renewable. The current fee structure for work permit (in US\$) is provided below:

Table 7: Work Permit Fee Structure

Category	Investors	Expatriates	Permit Duration
First Application	Free	\$300.00	One year
Renewal	Free	\$ 150.00	One year
Temporary (Not renewable)		\$200.00	Less than 6 months

Source: Labour Commission, 2016

Residence Permit Fee Structure

Residence permit is issued by Immigration Department through ZIPA. The current fee structure for Residence permit (in US\$) is provided below:

Table 8: Residence Permit Fee Structure

Category	Type	New & Replacement	Duration
Investor	class A	\$ 3050	3 years
Expatriate	Class B	\$ 2050	2 years
Researcher	Class C	\$ 500	2 years
Dependent		\$ 500	2 years
Business Visa		\$ 200	3 Months not extendable

Source: Department of Immigration Service - Zanzibar, 2016

Note:

Rates are subject to change without prior consultation with investors for both work and residence permits

6.0 Free Economic Zones

Information

Free Economic Zone is a geographical area that has more liberal economic laws than a country's domestic economic laws. Free Economic Zones in Zanzibar have been purposely established to attract FDI, specifically labour intensive projects and increase exports. Generally, companies that set their businesses in these designed areas in Zanzibar enjoy simplified customs and other administrative procedures. Zanzibar, currently, has five Free Economic Zones. These are

- Micheweni Zone
- Fumba Zone
- Amaan Industrial Park
- Maruhubi Free Port and
- Airport Free Port.

Eligibility

To be authorized to establish business activity within the Free Economic Zone and enjoy its incentives, a company has to fulfill the following conditions:

- Carry out industrial or export oriented business activities
- Export not less than 80% of its products / Services.

Free Economic Zones Investment Status

Since its establishment, ZIPA has approved 65 projects under Free Economic Zones, where by 24 projects out of them are registered under free port zone. About 34 projects are owned by foreign investors and the remaining 31 projects are owned by locals. The distribution of projects by ownership is summarized in the table below:

Table 9: Approved Project Under Free Economic Zones

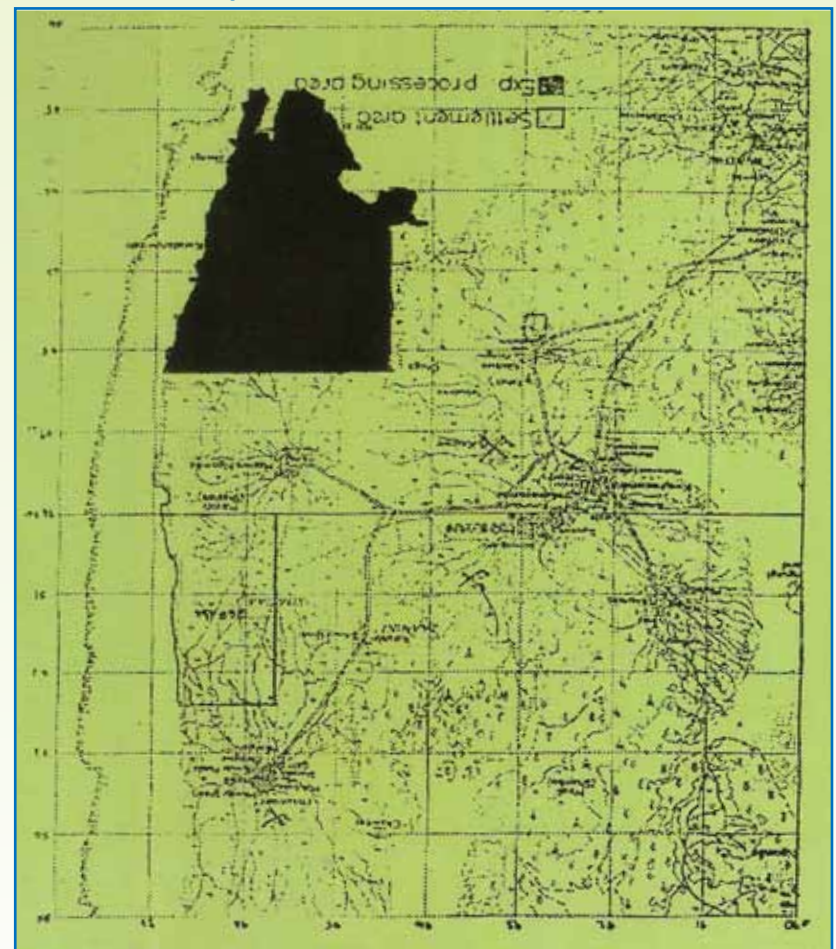

Type	Domestic	Foreign	Total
Free Zones	17	24	41
Free Ports	14	10	24
	31	34	65

Source: ZIPA 2017

6.1 Micheweni Zone

Covering an area of 808.8ha, Micheweni Free Economic Zone is situated on the northeastern tip of Pemba island about 75 km from Mkoani sea port and 45 km from Chake Chake airport. The zone offers untouched land ready to host potential investors. See the map below:

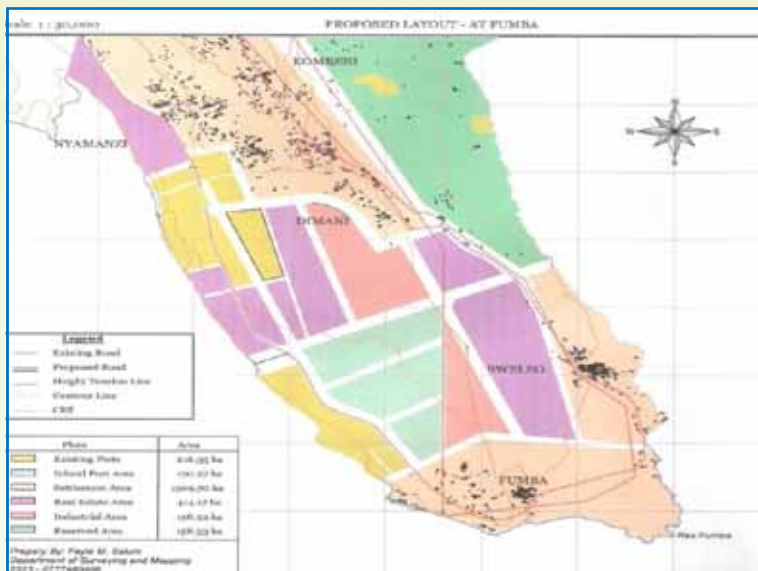

Micheweni Map

6.2 Fumba Zone

It is located about 24 km from Malindi seaport and 10km from the Zanzibar International Airport on the South-West of the Unguja island (Zanzibar). Fumba zone is the largest in Zanzibar covering an area of 3,000 hectares. It is an ideal place for customer-tailored construction of industrial sheds/warehouses as well as light engineering projects based on maximum use of local raw materials. See the map below:

Fumba Zone - Land Use Plan

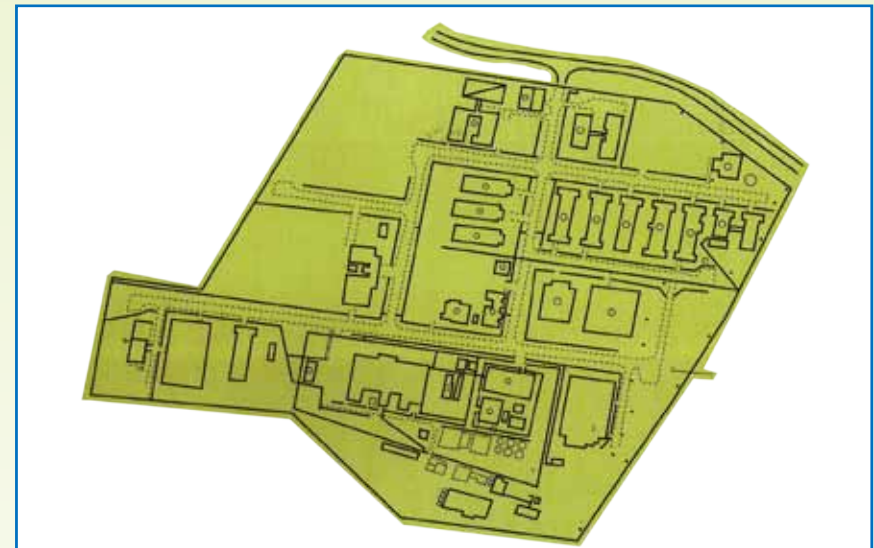

6.3 Amaan Industrial Park

Located just 3 kilometers from Malindi seaport and 2 kilometers from International Airport. Amaan Industrial Park is fairly developed and operational covering an area of 12.5 hectares. Existing infrastructure includes:

- Industrial sheds/warehouses
- All necessary utilities like electricity, water and telecommunication.
- On site customs inspection

PO Box: 2679, Zanzibar, Tanzania, Email: info@supergroup.net, Phone: +255774411788

6.4 Maruhubi Zone

The Maruhubi Zone is located about 5 km outside the Malindi seaport and has all basic facilities including cargo handling equipments, 24 hours security, electricity, water and telecommunication services. The zone has so far attracted 24 projects mainly transit trade business.

Maruhubi Free Port Zone - Land Use Plan

6.5 Air Port Zone

The Airport Zone, latest declared zone, is intended to cater for air cargo. Investments are encouraged for the development of the site as well as management of its future operation.

7.0 Zanzibar Investment

Promotion Authority (ZIPA)

Zanzibar Investment Promotion Authority (ZIPA) is a one stop shop for investment promotion and facilitation in Zanzibar. It was established under Zanzibar Investment Promotion and Protection Act no 11 of 2004. It also operates and manages free economic zones.

VISION

To make Zanzibar an attractive and competitive investment destination, regionally and globally.

MISSION

To be an efficient focal point for dynamic trade and investment promotion/facilitation by providing quality services through motivated professionals aimed at greater contribution to Zanzibar's economic growth and social well-being.

Core Values for ZIPA

- "We Are a Team"
- "We Are United"
- "We Are One"
- "Investors Are Our Partners"
- "We Work For the Common Good"

ZIPA's Functions

- Undertaking promotional activities
- Establishing, administering and simplified procedures of approving investment projects
- Facilitating foreign and local investments
- Assisting investors in solving regulatory problems
- Identifying new markets or opportunities for the expansion of business
- Assisting in investors in acquiring land
- Facilitating the speedy acquisition of all due incentives, necessary authorization and decisions required by investors including work and resident permits, land leases and other infrastructure services
- Playing advisory role to the Government in all investment matters
- Overseeing the formation and effective functioning of Business Council
- Promoting working relationship with international organisations

ZIPA has long term cooperation with international institutions that work together in supporting investments. Organizations like UNIDO, UNDP, MIGA, WAIPA, UNCTAD, AfDB and EABC have for years worked with ZIPA to improve the investment climate in Zanzibar.

ZIPA as “one stop centre”

- Assists investors to obtain all permits, licenses and visas;
- Recommend to the Minister an appropriate land for investment projects;
- Grants land leases to investors approved under free economic zones;
- Assists investors to navigate through administrative and regulatory hurdles;
- Provides an ‘aftercare’ service to all approved projects.

Investment status

Since its establishment, ZIPA has approved 626 investment projects with a proposed capital worth over United States Dollars (US\$) 5.1 billion. About 378 are in operation, 54 are under construction and the remaining

197 are at initial stages (pipeline projects). Tourism sector which includes hotels and restaurants, tour operations, and sea sport activities is leading by registering 384 projects equals to 61% of all projects. The distribution of projects by sector is summarized in the table below:

Table 10: APPROVED PROJECTS BY SECTOR

Industry	Domestic	Foreign	Total
Agriculture hunting and forestry	15	14	29
Fishing		3	3
Manufacturing	21	31	52
Electricity gas and water supply	1		1
Construction	2	4	6
Wholesale and retail trade	31	23	54
Hotels and Restaurants	103	240	343
Transport storage and communications	19	16	35
Financial Intermediation	1	5	6
Real Estate Renting and Business Activities	19	20	39
Education	3	5	8
Health and social work	4	5	9
Recreational and sporting	2	30	32
Tour Operation	7	2	9
Total	228	398	626

8.0 Tourist Attractions

The Jozani Forest Reserve

The Jozani Forest is located in the Central East Region of Zanzibar Island and is the home of rare Red Colobus Monkey, which is only prevalent to Zanzibar. The reserve also accommodates a large mangrove swamp and a tract of natural forest that is home to a few unique species including the Sykes monkey, bush babies, duikers, hyraxes, over 50 species of butterfly and 40 species of birds.

Misali Island

The island of Misali, 17km off the west coast of Chake Chake, is one of the Pemba highlights, offering idyllic beaches, nature trails for spotting flying foxes (bats), good snorkeling and superb diving. Misali's real treasure is its rich ecosystem, which boasts 42 types of coral, over three hundred species of fish, a rare subspecies of velvet monkeys, endangered colonies of flying foxes, nesting sites for green and hawksbill turtles, and a large, if rarely seen population of nocturnal coconut crabs.

Ngezi Forest

The Ngezi Forest reserve is located on the northwestern corner of Pemba Island. This equatorial forest reserve contains rare trees, some not found anywhere else in the world. The wildlife includes indigenous flying foxes, blue duikers and several varieties of owls. The forest opens up on the east to Vumawimbi Beach, an isolated and untouched stretch of beach that will make you feel that you are the only person in the world.

Swim with Dolphins

Dolphin tour experience can be found at Kizimkazi South Unguja, just an hour drive from Old Stone Town. Swimming with the dolphins is unforgettable experience. Kizimkazi is the place for dolphins sightings, home to both humpback and bottle-nose dolphins.

Unwind on the beach

Need to soothe your soul? Then, Zanzibar beaches are the place to relax, unwind and breathe in new life. After a lengthy safari there is no better way to end your holiday than on the white, blissful beaches of Zanzibar, lazing away, sipping cocktails and living the island paradise dream

Snorkeling at Mnemba

Recently declared a marine conservation area, Mnemba Island is a coral atoll, surrounded by thriving, vibrant reefs and the crystal clear Indian Ocean. The waters are teeming with an overwhelming number of beautiful tropical reef fish, and a wealth of marine creatures, from the majestic whale sharks to rare gem-like species of nudibranchs. Large pelagic creatures can often be seen passing by in the blue, and green turtles graze peaceably amongst the heads of plate and honeycomb corals.

Dinner at Forodhani

For tradition barbeque, Forodhani Park located at a heart of Stone Town is an ideal place to visit in Zanzibar. Visitors arrive just after sunset to enjoy the taste of fresh food. Tables are laden with rows of lobster tails, prawns, squids, kingfish, marlin and tuna and famous mishkaki.

Stone Town Tour

Zanzibar's Stone Town is a recognized by UNESCO World Heritage Site, and the setting for a long and winding history. It was in Stone Town where sultans lived, princesses loved and slaves were bought and sold. Stone Town is also patchwork of architectural styles originating along the Swahili Coast, Arabia, Asia and beyond.
